<b>Temperature stable at max and min temperature:</b>	Not applicable		

Other restrictions:

- After washing, fully dry your Global knife with a clean cloth and do not store unless it is fully dry.
- Your knife is rust resistant but not rustproof. This is not a fault of manufacture. It is more like a characteristic of the metal that also gives your knife the ability to maintain a super sharp edge. If your knife is left in contact with water, it will most likely develop rust spots. Never leave your knives to drip dry.
